1. INTRODUCTION

1. AltaGas Utilities Inc.'s (AUI, the Company) Inter-Affiliate Code of Conduct (Code) was approved by EUB letter, dated January 5, 2005. The AUI Inter-Affiliate Code of Conduct Compliance Plan (Compliance Plan) was subsequently approved in EUB Order U2005-342, dated August 29, 2005. 2. Accordingly, for the period January 1 - December 31, 2018, AUI reports the following:

2. COMPLIANCE REPORT

2.1 AUI Compliance Plan

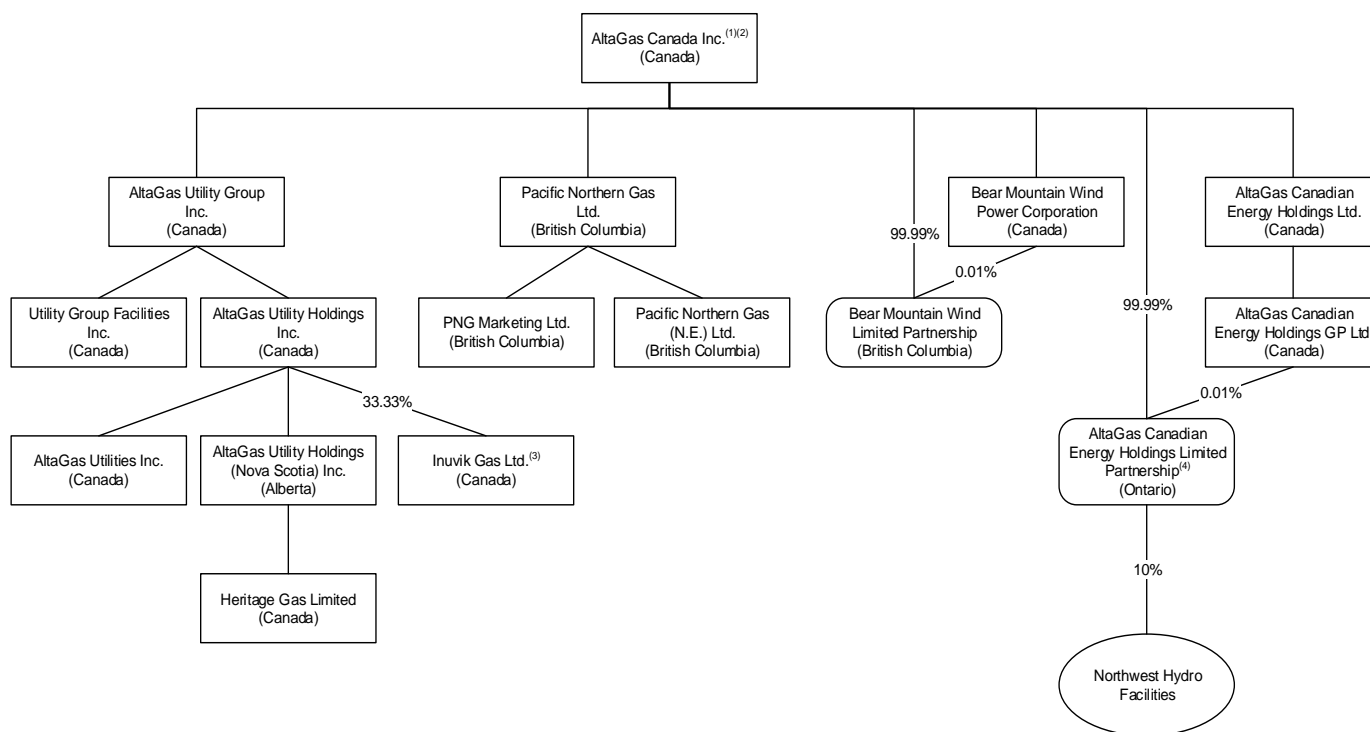

3. A copy of AUI’s approved Compliance Plan is provided in Appendix B.

2.2 Corporate Organizational Structure

4. On October 18, 2018, a corporate reorganization of certain AltaGas Ltd. (AL) companies resulted in AUI being an indirect wholly-owned subsidiary of AltaGas Canada Inc. (ACI). Following the reorganization, AL remained the ultimate parent of AUI as ACI remained a wholly-owned subsidiary of AL. On October 25, 2018, ACI completed the closing of an initial public offering (IPO). Following the IPO, AL’s interest in ACI was reduced to approximately 45 per cent, resulting in ACI no longer being wholly-owned by AL. In turn, AUI was no longer an indirect wholly-owned subsidiary of AL and AUI’s ultimate parent became ACI. On November 21, 2018, an over-allotment option was exercised which further reduced AL’s interest in ACI to 36.8 per cent.

5. Prior to the corporate reorganization on October 18, 2018, the corporate structure was unchanged from the structure reported in the 2017 Inter-Affiliate Compliance Report dated April 30, 2018.

6. Following is a copy of AUI’s corporate organizational structure as at December 31, 2018.

Notes:

(1) Updated December 31, 2018.

(2) Unless otherwise stated, ownership is 100 percent.

(3) Ikhill Resources Ltd. (a wholly owned subsidiary of Inuvialuit Petroleum Corporation) and ATCO Midstream NWT Ltd. each own a 33.33 percent in Inuvik Gas Ltd.

(4) AltaGas Canadian Energy Holdings Limited Partnership holds an indirect 10 percent ownership in the Northwest Hydro Facilities through a limited partnership.

2.5 Compliance with the Code

9. AUI advises there were no known instances of non-compliance in 2018.

10. To aid in achieving compliance, AUI provides a computer-based training program (CBT) and information to employees, consultants, contractors, agents and directors regarding the Code and Compliance Plan, when applicable. AUI believes these efforts are effective in developing each person's awareness of their responsibilities in respect to the Code and Compliance Plan.

11. In addition to the foregoing, AUI notes in AUC Decision 2010-481, the AUC indicated it would review Sharing of Employees (Section 3.3.1) and other issues through a consultative process with all affected utilities. During the period of the consultative process, the AUC suspended the requirement of ATCO and the other impacted utilities (e.g. AUI) to apply for exemptions related to Section 3.3.1. On March 23, 2012, the Commission issued a letter announcing it was suspending the Inter-Affiliate Consultation until late 2012. Subsequently, the Commission issued a letter suspending the Inter-Affiliate Code of Conduct Consultation until further notice due to the heavy regulatory calendar.¹ To-date, no further consultative process has been announced.

2.6 Effectiveness of the Compliance Plan

12. The Code and Compliance Plan were developed to:

¹ Exhibit 0051.01.AUC-1216, AUC Further suspension of consultation, Proceeding 1216, Application 1607301, November 6, 2012.

- a) Prevent utilities from cross-subsidizing affiliate activities;
- b) Protect confidential customer information collected in the course of providing utility services;
- c) Ensure affiliates and their customers do not have preferential access to utility services; and
- d) Avoid uncompetitive practices between utilities and their affiliates, as they may be detrimental to the interests of utility customers.²

13. AUI submits the Compliance Plan has been effective in achieving the above noted objectives. The specified mechanisms are fully integrated into the organizational resources and are reviewed on an on-going basis to ensure ongoing compliance having regard to current circumstances and operational practices. If required, modifications to the Plan will be considered and brought forward to the AUC for review and approval, as appropriate.

14. Throughout 2018, the contents of the Code and Compliance Plan have been communicated to employees, consultants, contractors, agents and directors of AUI, when applicable. The AUI Compliance Officer also obtained all necessary acknowledgements from those individuals and businesses, indicating their understanding and willingness to comply with the Code and Compliance Plan. As there have been very few instances of non-compliance over the last several years and none in 2018, AUI submits the existing mechanisms appear effective in achieving the objectives of the Code and Compliance Plan.

2.7 Description of any Material Non-Compliance

15. In AUC Bulletin 2010-24, AUI and other utilities were provided specific direction with respect to reporting of non-compliances:

Quarterly Exception Reports – utilities must provide a quarterly exception report within 60 days of the quarter end only if there is an instance of non-compliance with the code or plan. Exception reports must detail the non-compliance and corrective actions taken.

² AltaGas Utilities Inc. Inter-Affiliate Code of Conduct, approved by the Alberta Energy and Utilities board January 5, 2005.

Annual Compliance Reports – must be filed in accordance with Section 7.6 of each utility’s code within 120 days of the calendar year end. Section 7.6 item (g) requires the utility to report any material non-compliance. To avoid inconsistencies between utilities as to what constitutes a material non-compliance, the AUC require that all instances of non-compliance must be reported.

Non-Compliance with a utility’s code and plan – the AUC considers that non-compliance with the measures in the plan is an instance of non-compliance with the spirit and intent of the codes themselves. For the quarterly and annual compliance reports each utility must assess its compliance with both its plan and its code.³

16. As indicated previously, AUI advises there were no known instances of non-compliance during 2018.

2.8 Summary of Disputes & Complaints

17. During 2018, AUI did not receive any disputes or complaints regarding its compliance with the Code or Compliance Plan.

Specifically, this exemption allows non-officers in AUI's senior management team to serve as AUI's Compliance Officer. The exemption is not currently utilized.

On March 1, 2010, the Commission issued Decision 2010-085 exempting the Occasional EOH&S Services and Pipeline Operating Services from the requirements of Section 3.3.1 of the Code.
